1) The Event:

A Rallycross is a timed event for automobiles, generally held on an unpaved, flat surface, wherein the course consists of straight sections and connecting turns and corners. Accent in course design is also placed on the general avoidance of obstacles such as trees, exposures, deep ditches, etc. Surface terrain will be gravel, some ridges and bumps, and the possibility of large spots of standing water or snow depending on weather conditions. Competitors run the course one car at a time. The runs are timed and the fastest car in each class is the winner. Because of the shortness of the track and the frequency of tight turns, speeds are quite slow, and the emphasis is on driving skill and car setup. The Rallycross event will take place at Thunder Mountain Raceway, located 41 kilometers southeast of Kelowna, BC. The specific location at the Thunder Mountain complex is the rallycross track which is located past the north end of the drag strip.

There are some site-specific rules that all competitors should be aware of.

- The speed limit in the pits is a maximum of 10 km/h.
- There will be two run groups. When your group is not racing, you will be required to help work the course.
- Any competitor caught driving, or reported to have driven, on any part of the paved drag strip will be disqualified and banned from future events. The drag strip is out of bounds.
- All members of IRSA and all participants of IRSA Rallycross events are expected to drive on public roads in a manner that reflects well on the club and motorsport in general.

Penalties for non-compliance (up to exclusion from events) may be levied at the discretion of an IRSA executive member.
